SUMMARY

Aspiring software engineer, third-year B.Tech student at IIIT Jabalpur. Turns difficult systems into tools other people can run. Values tests, code review, and finishing work that stays usable after release.

EDUCATION

Indian Institute of Information Technology, Jabalpur <i>Bachelor of Technology, Electronics and Communication Engineering</i>	Jabalpur, India Aug 2024 – Present
---	---------------------------------------

SKILLS

- **Languages:** Python, C, C++, Java, JavaScript, TypeScript, SQL, Bash, HTML, CSS
- **Software:** React, Next.js, Node.js, FastAPI, REST APIs, Git, Docker, Linux, CI/CD, PostgreSQL, unit testing, debugging
- **Security:** Application Security, Vulnerability Assessment, Penetration Testing, Bug Bounty, Android Reverse Engineering, Static Analysis
- **Tools:** Frida, Rizin, Ghidra, IDA Pro, JEB, Radare2, Burp Suite, Android Studio, Postman

EXPERIENCE

- | | |
|---|-------------------------------|
| Google Summer of Code, Rizin Organization
<i>Open Source Developer</i> | Remote
May 2026 – Aug 2026 |
| <ul style="list-style-type: none">– Designed rz-frida, a Rizin core plugin with a frida:// URI covering 3 transports (local, USB, remote), a JSON command API, and an injected rzfrida_agent.js agent.– Implemented 20+ JSON commands for memory read/write, breakpoints, watchpoints, Android/Java class listing and import into Rizin analysis, a RegisterNatives hook, and static-vs-live class diffs.– Landed 17 pull requests across 4 repositories (rz-frida, Rizin, Cutter, rz-pm); collaborated with 3 mentors on a stub backend so the plugin compiles without frida-core. | |
| Rizin Project
<i>Open Source Contributor</i> | Remote
Nov 2025 – Apr 2026 |
| <ul style="list-style-type: none">– Hardened ELF parsing, address APIs, and allocator edge cases across 26 merged pull requests; ranked in the top 10 contributors in that window.– Authored regression tests and documentation for 2 tools (rz-find, rz-ar) that caught parsing failures before release. | |
| DigiLocker, Ministry of Electronics and Information Technology
<i>Application Security Researcher</i> | Remote
Feb 2025 – Apr 2025 |
| <ul style="list-style-type: none">– Discovered and disclosed 10+ high-severity and medium-severity bugs in DigiLocker’s Android app (500 million users) using Frida, JEB, and Radare2.– Partnered with DigiLocker engineers on remediation through written technical reports; received 1 official written acknowledgment from the Government of India. | |

PROJECTS

- | | |
|--|---|
| RzWeb – Browser-Native Reverse Engineering Platform
<i>TypeScript, React, WebAssembly, WASI, Emscripten, Python, Linux</i> | github.com/IndAlok/rzweb |
| <ul style="list-style-type: none">– Compiled the Rizin toolchain to WebAssembly (rzwasi) and ran analysis in 1 Web Worker per tab with typed RPC so the TypeScript UI stays responsive during long jobs.– Added IndexedDB project contexts (.rzdb snapshots, revision history, RZWEBPRJ export) plus 8+ analysis views (CFG, decompiler, xrefs, hex) and an MCP server on the same WASM core.– Launched rizin.pages.dev to 750+ GitHub stars and 70+ forks; analysis never leaves the browser and local toolchain setup dropped from hours to under 2 minutes. | |
| Rekha – Policy Engine and Audit Backend
<i>Python, FastAPI, Next.js, TypeScript, Docker, PostgreSQL</i> | github.com/IndAlok/rekha |
| <ul style="list-style-type: none">– Developed a FastAPI and Next.js service with Docker and PostgreSQL that enforces 4 YAML policy actions (allow, deny, defer, approval), HMAC webhook authentication, and a hash-chained audit log. Model-off tests cannot move funds; seeded eval gained +40.8 pp in completion rate. | |

ACHIEVEMENTS

- Led a student team to **1st Place** among **200+** students at CanYouHackIt; **Top 20 / 700+** teams at HackTheFuture 2025, IIT Gandhinagar.
- JEE Main top **1.2%**; CBSE merit (**100/100** Computer Science); CodeChef Starters 176 global rank **385**.

VOLUNTEER EXPERIENCE

- | | |
|---|---------------------------------------|
| Jagrati – Non-Profit Education Initiative
<i>Mathematics Tutor</i> | Jabalpur, India
Aug 2024 – Present |
| <ul style="list-style-type: none">– Taught 1 free mathematics session each week since Aug 2024 (2+ years) for underprivileged students preparing for Navodaya entrance exams, and created shorter study plans to raise conceptual scores. | |
